

CONNECTRONIX

Overview

Becker Connectronix provides an extensive selection of high-quality, factory-tested connection cables and connectors. Our robust and dependable solutions ensure reliable connectivity for signal, power, and data applications, available directly from us, the manufacturer.

Connection Technology Solutions

Becker Connectronix simplifies your cable selection process, offering two specialized variants tailored to your specific needs:

- **High Flex Cables:** Designed specifically for dynamic motion and demanding applications involving constant torsional movement, robotics, and automated machinery.
- **Standard Stationary Cables:** Ideal for fixed installations where cables require dependable performance without continuous flexing.

Signal Connection Cables & Connectors

We offer one of the industry's widest selections of signal connection solutions—including M8, M12, and M23 connectors—in both High Flex and Standard Stationary variants. Choose from numerous configurations, including female-to-female, female-to-male, and male-to-female, perfectly matching your specific application needs.

Power Connection Cables & Connectors

Select from our extensive portfolio of power connectors and cables, featuring M12, M23, M40, MQ15, and 7/8" variants. Available in High Flex for motion-intensive operations, or Standard Stationary Cables for stationary installations. Customize cable ends with the connectors best suited for your application.

Data Connection Cables & Connectors

Ensure rapid, secure, and dependable data transmission with Becker Connectronix's superior-quality data cables. Available in both High Flex and Standard Stationary variants, our cables excel in networking, telecommunications, and high-speed data transfer applications.

Quick & Reliable Delivery

With our extensive inventory of pre-assembled cables, Becker Connectronix guarantees short lead times to keep your operations running efficiently.

Connectronix | LinkTech | Reliable Connection Technology

Our comprehensive range includes:

- Sockets and cable plugs
- Adapter sockets/plugs, valve connectors, and field-wireable connectors

Why Choose Becker Connectronix?

As a leading manufacturer, Becker Connectronix is your single-source supplier for premium, factory-tested connection technology. Our cable solutions are precision-engineered for seamless integration, consistent performance, and superior reliability across your industrial applications.

Need assistance selecting the right cable or connector variant? Our dedicated technical support team is here to guide you. Contact your local Becker Connectronix representative for personalized advice.

Becker Connectronix –

Connecting Your World with Precision & Reliability!

Features & Benefits

- Guaranteed lasting seals—even when tightened by hand.
- Integrated end-stop protects O-rings from over-tightening.
- Specialized vibration protection ensures robust connections in challenging conditions.
- Clear LED indicators available on select models.

Industries & Applications Served

Becker Connectronix solutions are designed to meet specialized demands across diverse sectors, including:

- General Industrial Automation
- Hygienic & Wet Areas (Food & Beverage)
- Machine Tools & Metalworking
- Robotics & Automation (High Flex Applications)
- Welding Systems
- Mobile Machinery
- Hazardous Area Applications
